Week 7

Tasks Completed	Tasks for the Week	Task Priorities	Task Dependencies	Start Date	End Date
N/A	*Present our project to cohort * Choose another team's project to continue on from	*High * High	Before we could start on the second part of the project, we needed to decide which team's project we wanted to inherit.	10/11/25	16/11/25

Week 8

Tasks Completed	Tasks for the Week	Task Priorities	Task Dependencies	Start Date	End Date
Presented our project to the cohort Chose team 11 as the project to inherit	*Read through assessment 2 document *Read through updated product brief ^Update requirements	*High * High *Medium *Medium	Before we could start coding, we had to read through the updated deliverables and discuss ways in which they could be achieved.	17/11/25	23/11/25

	*Discuss new features				

Week 9

Tasks Completed	Tasks for the Week	Task Priorities	Task Dependencies	Start Date	End Date
*Read through assessment 2 document *Read through updated product brief *Update requirements *Discuss new features	*Allocate roles *Start updating deliverables for change report	*High *High	Before we could allocate our roles for assessment 2, we had to assess our approach to assessment 1 and consider any changes that would make our process more efficient. Before we could begin coding, we had to decide who was going to be working on the development of the code, so that the people coding could communicate the changes they have made.	24/11/25	30/11/25

Week 10

Tasks Completed	Tasks for the Week	Task Priorities	Task Dependencies	Start Date	End Date
*Allocate roles *Start updating deliverables	*Begin coding *Continue updating deliverables for change report *Create unit tests	*High *High *Medium	Before the code could be tested unit tests needed to be created.	01/12/25	07/12/25

Week 11

Tasks Completed	Tasks for the Week	Task Priorities	Task Dependencies	Start Date	End Date
*Begin coding *Continue updating deliverables	*Continue coding *Continue updating deliverables for change report *Create unit tests	*High *High *Medium *Medium	Before we could carry out the user evaluation, we needed to create the documents e.g. the consent form, information form, ethics form. We also needed to come up with	08/12/25	14/12/25

	*Create documents for user evaluation		questions to ask the participants as well as creating a way to record their responses.		

Winter break

Tasks Completed	Tasks for the break	Task Priorities	Task Dependencies	Start Date	End Date
*Continue coding

*Continue updating deliverables

*Create unit tests

*Create documents for user evaluation | *Continue coding

*Continue updating deliverables for change report

*Begin continuous integration document

*Find participants for user evaluation

*Test final code and fix any errors | *High

*High

*High

*High

*High | Before we could begin the user evaluation we needed to find participants from our cohort. We also needed our code to be mostly complete so that the participants can play a version of the game that is as close to the final version as possible.

*Before any errors could be found and therefore fixed the code needed to be tested. | 15/12/25 | 04/01/26 |

Revision week

Tasks Completed	Tasks for the week	Task Priorities	Task Dependencies	Start Date	End Date
*Continue coding *Continue updating deliverables for change report *Begin continuous integration document *Find participants for user evaluation *Test final code and fix any errors	*Finish updating deliverables for change report *Finish code *Finish testing *Finish continuous integration document *Complete user evaluation *Submit assessment 2	*High *High *High *High *High *High	Before assessment 2 could be submitted, we needed to ensure that the code was complete with all requirements met. We also needed to complete all of the assessment 2 deliverables.	05/01/26	11/01/26
